 <http://www.government-vendor.us>

If you sell any of the products and services listed below, you are welcomed and encouraged to add your business profile to the Government Vendor Directory.

 [PROFILE](#) . [Add a Profile](#)

*The Government Vendor Directory* is online business directory used by City, State & Federal purchasing agencies who buy products and services from local area businesses. Most purchases are made by credit card and payments are received within 72 hours.

There are over 700,000 government employees holding government issued credit cards who make purchases between \$2,000 and \$25,000. Government credit cards are widely used and account for around 50% of all government buys.

Purchase orders are no longer necessary for micro-purchases (under \$5,000). Purchases are made informally by telephone, fax, or email. These purchases can be made without competition. Buyers make sure that prices are reasonable and purchases are distributed fairly among vendors.
